Event attendance has been steadily growing. The following suggestions have been made to help run larger events more smoothly:

- Consider registration count when designing courses.

- Split events into 3 run groups so there is no need for a lunch break.

- Buy an additional license for registration software so two computers can be used at the same time.

- Novice walk-through should start earlier.

- Entire event schedule could be moved up.

- Region will start taking pre-payment for events before the December event.

- Different colored arm bands for novices would help novice dudes identify people who need assistance.

- An email sent to novice attendees asking for feedback may help gather additional ideas for how to improve events..

Marko Horn hosted the first Dixie Region meeting in Valdosta for members in South Georgia. The meeting went well and there was lots of excellent feedback. Many members were willing to help more at events. The following suggestions were made:
